### Acknowledgments

The committee for development of the **Komma and Allam Remembrance Garden** acknowledges with great appreciation: The excellent design and unflagging support of LSU Landscape Designer Dennis Mitchell and the skill and artistic rendering of the design by Jonathan M. Pellitteri of the LSU School of Art; two very generous financial contributions from Student Government at LSU and from the Dean of Students Office for construction of the garden and a Memorial Outlook at the edge of University Lake; many other contributions from fundraisers by the International Student Association and the ICC, the Indian Student Association, the Graduate Students of the Department of Biology at LSU, and individual contributions of all kinds; especially effective leadership and participation on the committee by IHF Executive Director Virginia Grenier; warm and stalwart support from Assistant Dean of Students Jennie Stewart; as well as an international parade of ISA officers working with Advisor Dr. Richard Vlosky, not-to-mention ICC Presidents and Building Committee officers whose commitment of time and resourcefulness was incredible; and support from many other individual student organizations and key University administrators—of very special note, Dr. William Jenkins, Mrs. Jan Martin, and Dr. Jane Cassidy. James C Ransom and your crews in Facility Services, thank you. Thank you All!
